CEO REPORT OF SEPTEMBER

This year the monsoons in Chandigarh stretched upto mid September. Nayagaon was flooded with water due to poor drainage system.

In medical project our aim has always been to bring down the red zone category of children under five years of age to 1% to 2% for last 13 years. This dream has always been a dream as Dir has not been able to achieve these figures. Following are the probable reasons:-

1. Poor drainage system and poor maintenance by municipality .
2. Polluted drinking water supply commonly seen in summers.
3. As per our statistics 8.5% population is floating population which needs constant counselling to make them aware of the importance of health by feeding nutritious food. To change the mind set of these families belonging to floating population takes time.

DIR was fortunate to have two International Red Cross Society staff visiting our DIR-INDIA Basti office in the month of September.

Dr.Mausam Bohara is the Regional Emergency Medical services coordinator, International Federation of Red Cross and Red Crescent Societies Asia Pacific Regional office and Noney Bhattarai former health officer in Red Cross in Kathmandu Nepal.

Dr.Mausam shared her experiences of

her work in Cox Bazar,Bangladesh which was an eye opener. Listening to the experiences and situation which Dr Mausam was narrating was sensitive, unpleasant and challenging .

Dr Mausam and Noni was very impressed by the medical project of DIR-India. She complimented the HP's on the standard of professional knowledge they have is of high standard. She was comparing the DIR medical standard with the staff working in Red Cross organization across the world. The encouraging statements by the red Cross team was inspiring.

Dr.Mausam has adopted 5 children from our NIPP program and donated Rs 60,000 to DIR for feeding them. We are grateful to her for this contribution for the noble cause.

A team of three officials from a NGO Sanjha Haq visited our organization. Col.LJS Gill, Vikram Singh and Dilpreet Singh appreciated our program. We are grateful to Sanjha Haq team for donating three ceiling fans for our classrooms.

In the last week of September Dr.Shilpa Bhatte, Shruti Menon and Guru Prasad Hota from Vitamin A Angels visited DIr. We are extremely grateful to Vitamin A Agels for giving us a regular supply of Vitamin A, Albendazole and Multivitamins for Pregnant and Lactating mothers.

DIR Team is working sincerely to maintain the high standard.

IMMUNIZATION PROGRAMME

Every Wednesday is designated as immunization in collaboration with Punjab Government Health Services.

A team of 3 doctors and Para-Medical staff of Homeopathic Medical College and Hospital of Sector-26 Chandigarh did two medical camps in the month of September 2018.

HOMEOPATHIC MEDICAL CAMPS: 2

- Common ailments among Females = Menopause,Leucorrhea and Arthritis.

THE FOLLOWING VACCINATIONS WERE GIVEN

IN SEPTEMBER 2018

VACCINATION FOR CHILDREN		VACCINATION FOR PREGNANT	
SHOT	DOSES	SHOT	DOSES
BCG	1	T.T BOOSTER	2
PENTA 1+ IPV	21+6	T.T 1	11
PENTA 2	12	T.T 2	11
PENTA3+ IPV	21+8		
MR 9 month	22		
MR 1.5 year	12		
MR	68		
DPT BOOSTER	12		
DPT 5 YR	16		
T.T 10 YR			
T.T 16 YR			

TOTAL IMMUNIZATION = 231
UNIMMUNIZED = 1

In this month one child was not immunized because of pneumonia.

NUTRITION TRAINING

On 18th September 2018,
we gave a demonstration to all H.P's on SOOJI TIKKI which is also called sooji cutlet. Sooji is called semolina in English. Basic ingredients in this recipe are semolina which is mixed in curd and water to make a dough. In order to make it nutritious and healthy we added different colorful vegetables like grated carrots, cauliflower, onion, boiled and mashed potatoes, peas, dry spices, coriander, spinach, coriander leaves. Small flat balls were made and deep fried, served with green chutney and tomato ketchup. It is served with tea.

This recipe is easy to make, rich in macro aand micronutrients like carbohydrates, proteins, fiber, iron, calcium etc.

NUTRITION IMPROVEMENT PRIORITY PROGRAMME

NIPP PROGRESS	
Total number of children in NIPP	53
A lactating woman in NIPP	5
Pregnant in NIPP	2
No. of children gained weight	22
No. of Children lose weight	13
No. of children with same weight	18

STATISTICS OF RED ZONE CHILDREN IN OUR PROJECT AREA

Age in months	Number of children	Percentage
0-12	27	1.9%
13-24	40	2.8%
25-36	51	3.6%
37-48	51	3.6%
49-60	33	2.3%
Total number of Red Zone children = 202		
Red Zone children went to village = 9		

STATISTICS OF PREGNANT MOTHERS AND NEWBORN

DELIVERIES

LAST MONTH PREGNANT	NO. OF DELIVERIES	BIRTHS		MOTHERS WHO LEFT BASTI		STILLBORN	MISCARRIAGE	ABORTION / MEDICAL TERMINATION	NEWLY PREGNANT	TRIMESTER			THIS MONTH PREGNANT IN THE BASTI
		MALE	FEMALE	TEMPORARILY	PERMANENTLY					FIRST	SECOND	THIRD	
97	23	15	9	3	4	-	-	-	27	7	43	47	97
