CEO's Report For February 2020

Developing Indigenous Resources India's work and dedication has gained popularity in Chandigarh. Many organizations are coming forward to work in partnership with us. Punjab University and Fraser Valley University of Canada are amongst the top few organizations who are helping us in a big way through a variety of training and education programs.

The Head of the Engineering Department of Panjab University, Dr.seema Kapoor, along with her team of Enactus volunteers and President Harleen, Vice President Aarushi and Tanya visited the organization for a social activity on 11th February.
DIR-India has signed a memorandum with Enactus to carry out social activities together for upliftment of the underprivileged community, particularly women. Dr Anu Gupta, Head Of Fashion Designing Department of Panjab University, taught the basti women how to make fancy bags and pouches out of old clothes. This program was a big hit and many women were in attendance.

We were pleased to welcome Doris and Susi from Switzerland, two of our board members, for a visit this month as well. They were both impressed to see the discipline and standard of learning we implement at our SWAD school, and that they have not seen this same level of teaching even in their own country. They commented how outgoing the children were in sharing poems and songs with them, which surprised them as children in Switzerland are usually very shy and reserved, unlike our SWAD children who are always ready to impress visitors with the latest poem they have learned.
As well, Maj. Gen. Verendra Kumar was so impressed to see the young children of SWAD who are not exposed to this kind of learning hold the same level of discipline as soldiers do in the army. He even stood up to salute them as they passed by on their march.

We thank you for your ongoing support in partnering with our organization and ask if you are interested in seeing our programs on the ground that you pay us a visit in our Basti Office and see our beautiful work for yourself. We are always open to create new partnerships with members of the community to transform the lives of those who live here.

IMMUNIZATION PROGRAM

Wednesday is the immunization day run by DIR-INDIA in collaboration with Punjab Government Health Services.

SCHOOL WITH A DIFFERENCE

This month we celebrated sports day on 18th february 2020 with great zeal, excitement and frolicsome atmosphere. The chief guest, also took the salute of the impressive march path of the students, coupled with some stirring marching music by the band. This whole event was organised with the help of Dr. Asha Katoch. All children had participated in events including sack race, simple race, color beads, frog race, lemon race. Fun time with a staff tug-of-war, in which few guests also volunteered to participate. Prize distribution was held to the winners and consolation prize to rest students.

SWAD ACTIVITIES AND TUITION CLASSES

Two school activities held this month, one is Salad making of fruits and vegetables and another is coloring pictures.
